Advice on safe handling: Remove contaminated clothing and protective equipment before entering eating areas. Workers should wash hands and face before eating, drinking and smoking.
Put on appropriate personal protection equipment.
Eating, drinking and smoking should be prohibited in areas
where this material is handled, stored and processed.

Hygiene measures: Appropriate techniques should be used to remove potentially
contaminated clothing. Wash hands, forearms and face thor-
oughly after handling chemical products, before eating, smok-
ing and using the lavatory and at the end of the working peri-
od. Wash contaminated clothing before reusing. Ensure that
eyewash stations and safety showers are close to the work-
station location.

7.2 Conditions for safe storage, including any incompatibilities
Requirements for storage
areas and containers: Store in accordance with local regulations. Store in original
container protected from direct sunlight in a dry, cool and well-
ventilated area, away from incompatible materials (see Se-
tion 10) and food and drink. Keep containers sealed until
ready for use. Do not store in unlabelled containers.
