4. FIRST AID MEASURES

General advice : Move out of dangerous area.
Show this safety data sheet to the doctor in attendance.
Do not leave the victim unattended.

If inhaled : Remove victim to fresh air and keep at rest in a position comfortable for breathing.
If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
If symptoms persist, call a physician.
If unconscious, place in recovery position and seek medical advice.
Keep respiratory tract clear.
Loosen tight clothing such as a collar, tie, belt or waistband.

In case of skin contact : If on skin, rinse well with water.
Take off contaminated clothing and shoes immediately.
If symptoms persist, call a physician.
Wash contaminated clothing before reuse.
In case of eye contact: Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed: Rinse mouth with water. Give small amounts of water to drink. DO NOT induce vomiting unless directed to do so by a physician or poison control center. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Keep respiratory tract clear. Loosen tight clothing such as a collar, tie, belt or waistband. If symptoms persist, call a physician.

Most important symptoms and effects, both acute and delayed: Causes serious eye irritation. See Section 11 for more detailed information on health effects and symptoms.

Notes to physician: No special measures required. Treat symptomatically.
