SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : LEWATIT MDS TP 208
Material number : 56814470
Recommended use : Ion exchange, resins and catalysts

Manufacturer or supplier’s details
Supplier : Lanxess, S.A. de C.V.
Ejército Nacional No. 579 piso 3
Col. Granada
CP 11520
Mexico
Telephone : +525552624300
Emergency telephone : SETIQ 01-800-00-214-00, 55-59-15-88
24 horas (Transporte); 52-62-43-00
Lunes a Viernes de 8:00 a 17:00 hrs

SECTION 2. HAZARDS IDENTIFICATION

This product has been classified according to the Global Harmonized System of the United Nations (Purple Book Rev. 5) and in accordance with the NOM-018-STPS-2015.
Not a hazardous substance or mixture.

GHS label elements
Not a hazardous substance or mixture.

Hazard Not Otherwise Classified (HNOC)
None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture
Chemical nature : styrene-divinylbenzene-copolymer with iminodiacetic acid groups in form of salt

Components
No hazardous ingredients

SECTION 4. FIRST AID MEASURES

General advice : Move out of dangerous area.
Do not leave the victim unattended.
Show this safety data sheet to the doctor in attendance.

If inhaled : Remove victim to fresh air and keep at rest in a position comfortable for breathing.
Keep respiratory tract clear.
If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Maintain open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention if symptoms occur.

In case of skin contact: Wash off with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

In case of eye contact: Get medical attention if symptoms appear.

If swallowed: Rinse mouth with water. Give small amounts of water to drink. Get medical attention if symptoms occur. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

Symptoms: No symptoms known or expected.

Protection of first-aiders: No action shall be taken involving any personal risk or without suitable training.

Notes to physician: No special actions required.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. In case of fire, use water spray (fog), foam or dry chemical.

Unsuitable extinguishing media: None known.

Specific hazards during firefighting: None

Hazardous combustion products: Carbon monoxide
Carbon dioxide (CO2)
Nitrogen oxides (NOx)
Metal oxides

Special protective equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: No action shall be taken involving any personal risk or without suitable training.
Emergency procedures

Do not touch or walk through spilled material.
Put on appropriate personal protection equipment.
Hazard of slipping on spilled product.

Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
If the product contaminates rivers and lakes or drains inform respective authorities.

Methods and materials for containment and cleaning up

Move containers from spill area.
Vacuum or sweep up material and place in a designated, labeled waste container.
Dispose of wastes in an approved waste disposal facility.
Do not allow into the sewerage system, surface waters or groundwater or into the soil.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling

Remove contaminated clothing and protective equipment before entering eating areas.
Workers should wash hands and face before eating, drinking and smoking.
Put on appropriate personal protection equipment.
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed.

Conditions for safe storage

Store in accordance with local regulations.
Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink.
Keep containers sealed until ready for use.
Do not store in unlabeled containers.
Take action to prevent static discharges.
Do not allow to dry.

Further information on storage stability

It is recommended to store ion exchange resins at temperatures above the freezing point of water. If the resin should become frozen, the resin should not be mechanically handled and should be left to thaw out gradually at ambient temperature. It must be completely thawed before handling or use. No attempt should be made to accelerate the thawing process.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters
Contains no substances with occupational exposure limit values.

Engineering measures
Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Personal protective equipment

Respiratory protection: In the case of dust or aerosol formation use respirator with an approved filter.

Filter type: P1 filter

Hand protection

Material: Polyvinyl chloride - PVC
Wearing time: < 60 min

Material: Nitrile rubber - NBR
Wearing time: < 60 min

Eye protection: Safety glasses with side-shields

Skin and body protection: Wear suitable protective clothing.

Hygiene measures: Appropriate techniques should be used to remove potentially contaminated clothing. Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: solid
Appearance: beads
Color: beige, opaque
Odor: odorless
Odor Threshold: No data available
pH: No data available
Melting point/range: > 200 °C
Boiling point/boiling range: No data available
Flash point: No data available
Evaporation rate: No data available
Flammability (solid, gas): No data available
Upper explosion limit / Upper: No data available
SAFETY DATA SHEET
LEWATIT MDS TP 208

flammmability limit

Lower explosion limit : No data available
Vapor pressure : No data available
Relative vapor density : No data available
Relative density : 1.17
Density : 1.16 g/cm³ (20 °C)
Bulk density : 700 - 780 kg/m³

Solubility(ies)
    Water solubility : insoluble

Partition coefficient: n-octanol/water : No data available

Ignition temperature : > 300 °C

Decomposition temperature : No data available
Viscosity : No data available
Explosive properties : No data available
Oxidizing properties : No data available
Molecular weight : No data available

SECTION 10. STABILITY AND REACTIVITY

Reactivity : No specific test data related to reactivity available for this product or its ingredients.

Chemical stability : The product is chemically stable.

Possibility of hazardous reactions : No dangerous reaction known under conditions of normal use. Auto-flammability

Conditions to avoid : No specific data.

Incompatible materials : Strong oxidants, e.g. nitric acid, can cause violent reactions if they come into contact with ion exchange resins.

Hazardous decomposition products : No decomposition if stored normally.
SECTION 11. TOXICOLOGICAL INFORMATION

The most important known symptoms and effects are described in Section 2 and/or Section 4.

Acute toxicity
Not classified based on available information.

Product:
Acute oral toxicity: LD50 (Rat): > 5,000 mg/kg
Remarks: Test results on an analogous product

Skin corrosion/irritation
Not classified based on available information.

Product:
Result: No skin irritation
Remarks: Test results on an analogous product

Serious eye damage/eye irritation
Not classified based on available information.

Product:
Result: No eye irritation
Remarks: Test results on an analogous product

Respiratory or skin sensitization
Skin sensitization
Not classified based on available information.

Respiratory sensitization
Not classified based on available information.

Germ cell mutagenicity
Not classified based on available information.

Carcinogenicity
Not classified based on available information.

Reproductive toxicity
Not classified based on available information.

STOT-single exposure
Not classified based on available information.

STOT-repeated exposure
Not classified based on available information.

Aspiration toxicity
Not classified based on available information.
Further information

**Product:**
Remarks: According to our experience and information the product has no harmful effects on health if properly handled.

### SECTION 12. ECOLOGICAL INFORMATION

**Ecotoxicity**
No data available

**Persistence and degradability**
No data available

**Bioaccumulative potential**
No data available

**Mobility in soil**
No data available

**Other adverse effects**

**Product:**

- Adsorbed organic bound halogens (AOX): Remarks: The product does not contain organically bounded halogens which could lead to an AOX value in waste water.
- Additional ecological information: No known significant effects or critical hazards.
  
  The product is insoluble in water. Therefore, ecological tests have not been conducted.

### SECTION 13. DISPOSAL CONSIDERATIONS

**Waste from residues**

- The generation of waste should be avoided or minimized wherever possible.
  - Dispose of wastes in an approved waste disposal facility.
  - This material and its container must be disposed of in a safe way.
  - The product should not be allowed to enter drains, water courses or the soil.
  - Waste disposal should be in accordance with existing federal, state, provincial and/or local environmental controls.

**Disposal methods**

- Empty containers retain residue and can be dangerous.
  - Dispose of as unused product.
  - Do not re-use empty containers.

### SECTION 14. TRANSPORT INFORMATION

**Domestic regulation**
NOM-002-SCT
Not regulated as a dangerous good
Further information for transport: If packagings larger than 3 m³: dangerous good of division 4.2.

International Regulations

IATA-DGR
Not regulated as a dangerous good

IATA (Cargo)
Further information for transport: If packagings larger than 3 m³: dangerous good of division 4.2.

IATA (Passenger)
Further information for transport: If packagings larger than 3 m³: dangerous good of division 4.2.

IMDG-Code
Not regulated as a dangerous good
Further information for transport: If packagings larger than 3 m³: dangerous good of division 4.2.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

Hazard Statements:
Not dangerous cargo
- Avoid temperatures below -20 °C.
- Avoid heat above +40 °C.
- Keep separated from foodstuffs

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture
The following Regulations are applicable to the handling of chemicals in the workplace:

- Federal Regulation on Safety and Health at the Workplace.
- NOM-005-STPS concerning the Conditions of Health and Safety in the Workplace for the Handling, Transport and Storage of Hazardous Chemicals.
- NOM-017-STPS - Personal Protective Equipment Selection, Use and Handling in the workplace.
- NOM-010-STPS Compatibility and segregation for the Storage and Transportation of Hazardous Substances, Materials and Wastes

SECTION 16. OTHER INFORMATION

Revision Date: 02/21/2019

This information is furnished without warranty, express or implied. This information is believed to be accurate to the best knowledge of our knowledge. The information provided in this Safety Data Sheet...
